

Guidelines for Reduction in Registered Capacity on the Unified Single Window Rooftop PV Portal for GEDA

Step 1: Click on “Reports” to view the list of the applications. This feature will only approve the reduction of Registered Capacity.

Step 2: Click on “Capacity Reduction” to open a page with the list of the request received for reducing the capacity

Step 3: The DisCom shall look into the reason for the change and if the reason seems genuine then they can approve the request.
